

Our Future

NEXT EXIT 

We want to know what you think. So we're asking our communities for their input to help us create a new Economic Strategic Plan

The Communities of Stratford, St Marys and Perth County would like to invite their respective communities to participate in various Town Hall Meetings. A critical aspect to a successful, forward-looking Economic Development Strategy is bringing together all the thoughts and feelings communicated by residents and business owners.

Perth County, St. Marys and Stratford have proud histories with exciting futures and this new community-wide strategic planning initiative will deliver two critical working documents:

-  A Labour Market Analysis that will identify the current and emerging labour market skills and the capacity of our workforce to maximize emerging technologies.
-  An Economic Development Strategy that will help the collective communities to visualize beyond our traditional economic landscape to identify prospects to diversify our economies and explore new emerging market opportunities.

All town hall meetings are open to the public. Come and hear about the consultation process and participate in small group discussions about the future Economic Development direction of your community.

Meetings will be held from 7pm to 10pm at:
